NEARLY HALF A MILLION VEHICLE RELATED THEFTS WERE REPORTED OVER 2009/10, AND 2011 SHOWED A 7% INCREASE.¹

There is a solution – the key to recovery is speed. MINI Trackstar is the only MINI UK approved stolen vehicle recovery product which can pinpoint the location of a stolen vehicle, which means in the unlikely event that your vehicle is stolen, MINI Trackstar can assist you in locating it and getting it back.

- Endorsed by all Police Authorities
- Protects against unauthorised movement
- Insurance approved
- European cover as standard²

Vehicle theft is an unfortunate fact of modern life however, with the comprehensive security systems your MINI offers, you are covered against most types of potential car theft. Despite this fact, the ever increasing levels of sophistication in car/key theft mean you don't always know what's round the corner.

Vehicle theft is as inconvenient as it is distressing and there is a strong possibility that your vehicle could never be recovered.

MINI Trackstar is a MINI UK approved product.

MINI TRACKSTAR PRODUCTS.

MINI TRACKSTAR PROVIDES:

- Protection against illegal movement of the vehicle, via its unique motion sensor detector.
- Full battery back-up, which ensures that your vehicle is protected in the event of the battery being disconnected. The system automatically arms when the ignition is switched off.

This means if your vehicle is moved illegally, your in-vehicle unit will immediately alert the Control Centre and provide the exact location of the vehicle. You will then be contacted to confirm that your vehicle has been stolen. The Control Centre will then contact the Police and continually track your vehicle which will then be returned to you once your vehicle has been recovered.

INSURANCE APPROVED.

MINI Trackstar is an insurance approved security product, so you may be entitled to an insurance discount.

MINI TRACKSTAR³.

MINI Trackstar is a small covert electronic device installed in your vehicle which utilises state of the art technology such as GPS (Global Positioning Satellite), GSM (Global Systems for Mobile Communications) and an integrated motion detector in order to accurately locate your vehicle, should it be stolen.

Therefore, either when you report a theft or the Control Centre contact you to advise you of a possible illegal movement, the unit is activated and tracking will commence.

MINI Trackstar attracts full Thatcham Quality Accreditation (CAT 6).

MINI TRACKSTAR 5³.

The MINI Trackstar 5 unit operates in the same way as the MINI Trackstar unit but incorporates the added benefit of a Driver Authentication Device.

If the Driver Authentication Device is present the MINI Trackstar 5 unit can detect that the person driving the vehicle is authorised to do so, therefore in the event of a theft where the thief does not have the Driver Authentication Device, the Control Centre is alerted.

Reports have shown that an increasing trend amongst car thieves is to steal the vehicle's keys. Thus without the Driver Authentication Device, the theft will be identified promptly and ultimately increase the likelihood of a successful recovery.

MINI Trackstar 5 attracts full Thatcham Category 5 Accreditation.

MINI TRACKSTAR ON-DEMAND³.

MINI Trackstar On-Demand is a web based technology enabling you to track your vehicle, view recent journeys and run business / private mileage reports.

For more information please contact your MINI Dealer.
